- 3.7 Signs that inform people of the existence of CCTV, as required by UK GDPR and guidance from the Information Commissioner have been placed at access routes to areas covered by the schools' CCTV.
- 3.8 A log is kept of Authorised Staff access to Recorded Images (template below).

4. Operation of and Access to the System

The Trust is registered with the Information Commissioner’s Office and the next renewal date recorded.				
There is a named individual who is responsible for operation of the system.				
The problem we are trying to address has been clearly defined and installing cameras is the best solution.				
The CCTV system is addressing the needs and delivering the benefits that justified its use.				
The nature of processing or surveillance equipment has not changed since the last review.				
Clear procedures and policies are in place for CCTV and are up to date with any changes to the system/processing (eg CCTV Policy, CCTV DPIA, Privacy Notices).				
The system equipment produces clear images which law enforcement agencies e.g. police can use to investigate crime and these can easily be taken from the system when required.				
Cameras have been sited so that they provide clear images.				
Cameras have been positioned to avoid capturing images of people who are not visiting the premises.				
There is sufficient suitable signage notifying people that CCTV monitoring is in operation, including our contact details where it might not be obvious that the system is managed by this

school.				
Information is available to help deal with queries about operation of the system and how individuals can make access requests.				
Sufficient safeguards are in place to protect wireless transmission systems from interception.				
There are sufficient controls and safeguards in place if the system is connected to, or made available across, a computer, e.g. an intranet.				
Images from this CCTV system are securely stored, where only a limited number of authorised persons may have access to them.				
A log is maintained of all access to the system, including names of staff viewing images and whether any images are shared.				
Recorded data will only be retained long enough for any incident to come to light (e.g. for a theft to be noticed) and the incident to be investigated.				
The process for deleting data is effective and being adhered to.				
Except under the direction of an appropriate public authority (usually police), images will not be provided to third parties, unless the Headteacher has approved the disclosure of the data under the advice of the DPO.				
When information is disclosed, it is transmitted as securely as possible e.g. viewed on school/trust premises, hand delivered/collected in person on a device, a fully tracked postal service etc.				
Staff are trained in security procedures and there are sanctions in place for any misuse of surveillance system information.				
Regular checks are carried out to ensure that the system is

working properly and produces high quality and useful data.				
There is adequate protection against any cyber security risks or risks in the event of any hardware being lost/stolen.
